

Chandan Tiwari

Full-Stack Developer • 4+ Years • Fast Interfaces, Clean APIs, Zero Production Excuses

Noida, India | +91 9905880522 | tiwarichandan936@gmail.com | [LinkedIn](#) | [Portfolio](#) | [github](#)

Professional Summary

Full-Stack Software Engineer with 4+ years of experience building scalable web applications and high-performance APIs using React.js, Node.js, and cloud-native technologies. Delivered platforms serving 2,000+ customers across 100+ countries, reduced API response times by 42%, improved frontend performance by 40%, and integrated 200+ third-party APIs. Experienced in designing secure, production-ready systems with microservices, OAuth2/Keycloak authentication, AWS, Docker, and Kubernetes.

Technical Skills

- **Languages:** Javascript, Typescript, PHP, SQL
- **Frontend & Frameworks:** React.js, Next.js, Vue.js, Redux Toolkit, React Query, Tailwind CSS, Material UI, Context API, Pinia
- **Backend & APIs:** Node.js, Express.js, Laravel, REST APIs, GraphQL, JWT, OAuth2, Keycloak, System Design
- **Databases & Caching :** MongoDB, Mongoose, MySQL, PostgreSQL, Redis
- **Cloud & DevOps:** AWS (EC2, S3), Docker, Kubernetes, CI/CD
- **Monitoring & Observability:** Grafana, Prometheus, ELK Stack
- **Testing & Quality:** Jest, SonarQube, Postman
- **Tools & Collaboration:** Git, GitHub, Jira, Agile/Scrum

Professional Experience

Bakuun.com — Full Stack Developer

Jul 2025 – Present

B2B travel distribution platform • 2,000+ customers • 100+ countries

- **Cut average API response time by 42% (from 1-2s → 200-500ms)** by re-architecting Node.js/Express.js endpoints, directly improving real-time connectivity for 200+ integrated travel providers.
- **Slashed production bug rate by 45%** by building a Jest test suite reaching 80%+ code coverage across all core business modules — zero critical incidents since rollout.
- **Lifted frontend page load performance by 40%** through Vue.js component optimization, code splitting, and lazy loading across Marketplace, B-Aggregate, and Admin Panel modules.
- **Unified 200+ third-party travel provider APIs** into a single integration layer, enabling seamless data exchange across the full B2B travel distribution ecosystem.

Cloud Analogy —Full Stack Developer II

Jan 2022 – June 2025

Project: Safeguard Global

- Drove a **40% increase** in organic traffic by engineering reusable Gatsby templates with SEO best practices and integrating GTM + Google Analytics, giving the marketing team actionable, real-time data.
- **Eliminated authentication vulnerabilities** by implementing **JWT, Keycloak, and OAuth2** across the full platform, securing access for thousands of global HR users with zero reported breaches.
- **Accelerated UI delivery by 30%** by building a reusable React component library that converted Figma designs into production-ready interfaces, reducing front-end development cycles across multiple sprints.
- **Reduced third-party API integration time by ~25%** by designing a standardized middleware layer, enabling faster onboarding of new data sources and libraries ..

Cloud Analogy —Full Stack Developer I

Aug 2021 – Nov 2022

Project: Mango Semiconductors — Full-Stack E-Commerce Platform

- Built a full-stack platform from 0 to **5,000 users, managing 1,000+ product SKUs** end-to-end — delivered on schedule with no performance degradation under peak load.
- **Achieved sub-second checkout (800ms-1s)** by integrating PayPal, Stripe, and Razorpay with optimized payment flows, reducing cart abandonment
- **Cut backend response time by 35%** by redesigning RESTful APIs for product catalog, order management, and telecom data retrieval — eliminating N+1 queries and redundant middleware
- **Integrated 10+ third-party APIs** (payments, e-commerce, telecom) with a modular adapter pattern, reducing future integration effort by ~40%

Education

Chandigarh University
B.E. in Computer Science and Engineering

Mohali, Punjab
Aug 2018 – Jun 2022

Certification
